

Al Presidente del Consiglio Comunale

Proponente: Gruppo di Maggioranza PD in Consiglio Comunale.

OGGETTO: Richiesta informazioni sulla gestione e/o utilizzo campetto da tennis.

Il Gruppo di Maggioranza PD

VISTA le numerose segnalazioni verbali che provengono dai cittadini circa l'utilizzo del Campetto da Tennis sito in Contrada Marcato, infatti con sistematicità vengono visti giocare presso la detta struttura comunale adulti, ragazzi e con ogni probabilità anche minori

CONSIDERATO che, da una ricerca fatta sul sito del Comune di Valguarnera, nessuna convenzione o altro documento appare pubblicato per affidamento a qualsiasi titolo a Società, Associazioni o Privati che legittimi l'utilizzo del Campetto

PIU' VOLTE in seduta di II^a Commissione Consiliare si è dato indirizzo all'Assessore al Ramo di convocare chi, a livello dilettantistico, pratica lo Sport Tennis a Valguarnera affinché si costituiscano in Società o Associazione così da dare, eventualmente, in gestione o in affidamento il Campetto, ai fini di scongiurare ogni uso improprio e non disciplinato dello stesso, anche per garantire l'incolumità di chi gioca e contrastare eventuali responsabilità verso terzi

Per quanto sopra

CHIEDIAMO

All'Assessore al Ramo, al Sindaco e al Responsabile del Settore preposto

-Di disciplinare l'utilizzo del Campetto da Tennis

-Di verificare a chi sono affidate le chiavi per accedere alla struttura

-Di verificare se esiste una Assicurazione che sollevi l'Ente da ogni responsabilità qualora, ci auguriamo mai, dovesse succedere qualsiasi evento spiacevole

1. The first part of the document is a letter from the author to the editor of the journal. The letter discusses the author's interest in the topic of the article and the reasons for writing it. The author mentions that they have conducted extensive research on the subject and believe that their findings are significant and worth sharing with the academic community. The author also expresses their hope that the journal will accept the article for publication and that it will contribute to the ongoing discussion in the field.

2. The second part of the document is the title page of the article. It includes the title, author's name, and the journal's name and volume information.

3. The third part of the document is the abstract. It provides a brief summary of the article's main findings and conclusions. The abstract states that the author has analyzed the relationship between the variables X and Y and has found a strong positive correlation. The author also mentions that they have used a statistical method to test the hypothesis and that the results are statistically significant. The abstract concludes by stating that the findings have important implications for the field and that further research is needed to explore the underlying mechanisms.

4. The fourth part of the document is the introduction. It sets the context for the study and outlines the research objectives. The introduction begins by discussing the importance of the topic and the current state of knowledge. It then identifies the specific research question that the author is addressing. The author explains that the study is designed to test the hypothesis that there is a positive relationship between X and Y. The introduction also mentions the methods used for data collection and analysis and concludes by stating the significance of the study's findings.

5. The fifth part of the document is the conclusion. It summarizes the main findings of the study and discusses their implications. The conclusion states that the author has found a strong positive correlation between X and Y, which supports the hypothesis. The author also discusses the limitations of the study and suggests areas for future research. The conclusion ends by emphasizing the importance of the findings and their potential impact on the field.

6. The sixth part of the document is the references. It lists the sources used in the article, including books, journal articles, and other academic works. The references are formatted according to the journal's guidelines and provide a comprehensive list of the literature reviewed by the author.

7. The seventh part of the document is the appendix. It contains additional information related to the study, such as data tables, figures, and supplementary materials. The appendix is organized into sections and provides a detailed look at the raw data and the results of the statistical analyses.

-Di procedere con la massima sollecitudine affinché lo Sport Tennis oggi praticato a Valguarnera continui ad esistere

Il nostro documento oggi viene trasmesso perché crediamo nello sport in tutte le sue espressioni, quale momento e opportunità di aggregazione, crescita e coesione sociale, e perché vogliamo si ottemperi alla carenza gestionale degli impianti sportivi e alla carenza nella valorizzazione dello sport, carenza oggi evidente nel nostro territorio.

Cogliamo l'occasione per invitare ancora l'Assessore al Ramo affinché convochi le Società sportive e stipulare, qualora ne siano interessate, delle convenzioni che disciplinino l'utilizzo del Campo Sportivo Comunale

Al Presidente del Consiglio Comunale chiediamo che

si faccia carico di trasmettere detto documento a chi di competenza

Il Vice Capogruppo PD

1. The first part of the paper is devoted to the study of the structure of the group of automorphisms of a free group of finite rank. It is shown that this group is a free group of infinite rank.

2. In the second part, we study the structure of the group of automorphisms of a free group of finite rank which act trivially on the abelianization. It is shown that this group is a free group of infinite rank.

3. In the third part, we study the structure of the group of automorphisms of a free group of finite rank which act trivially on the second homology group. It is shown that this group is a free group of infinite rank.

4. In the fourth part, we study the structure of the group of automorphisms of a free group of finite rank which act trivially on the second homology group and on the abelianization. It is shown that this group is a free group of infinite rank.

5. In the fifth part, we study the structure of the group of automorphisms of a free group of finite rank which act trivially on the second homology group and on the abelianization and on the third homology group. It is shown that this group is a free group of infinite rank.

6. In the sixth part, we study the structure of the group of automorphisms of a free group of finite rank which act trivially on the second homology group and on the abelianization and on the third homology group and on the fourth homology group. It is shown that this group is a free group of infinite rank.

7. In the seventh part, we study the structure of the group of automorphisms of a free group of finite rank which act trivially on the second homology group and on the abelianization and on the third homology group and on the fourth homology group and on the fifth homology group. It is shown that this group is a free group of infinite rank.
